igement has assured representatives f the churches that ample space will be set aside in one of the eight large buildings to be erected, probably in the Educational palace, for exhibits of Christian work and methods. Acting on the assurance, Methodists, Presbyterians and others on the coast have named commissions to collect and arrange exhibits. Their request for cooperation by official organizations of their respective churches, with headquarters in the east, has met with promises of assistance. Most of these commissions have decided that the Papama exhibit at San Francisco shall consist of efficiency methods. A hall will be reserved for evangelistic addresses, under direction of particular churches, but the greatest emphasis will be placed. It is now reported upon methods of work, up to date and economic. set aside in one of the eight large President Shailer Matthewn, of the federal council of churches, has rec-ommended, and his council endorsed,

MISSIONARIES IN JAPAN ALARMED AT CALIFORNIA AFAIR Christian missionaries in Japan, ineluding those of England, have joined in a cable to missionary societies in the United States urging Christian the United States urging Christian people here to use influence in the California land ownership enactments. The missionaries now in Japan say it is imperative that a just sentiment be created and maintained. Rev. Dr. Arthur J. Brown, of the Presbyterian foreign board, and representing the reference commission of the foreign missions conference of the United States and Canada, has just issued a statement to the effect that the large financial and spiritual lavestment of the churches of America in Japan, and also in China and Korea, demand that a fair polley obtain at home in political affairs.

The loyalty of the Japanese govern-

cal affairs.

The loyalty of the Japanese government in carrying out its agreement of 1907 regarding the restriction of Japanese emigration to the United States is an indication, thinks these mission-tary interests, that Japan seeks to act in good faith. Appreciation of the difficulties of California is expressed, but so is the stand of president Wilson endersed. Rev. Dr. Brown points out, in behalf of all indistinancy endeavors, that the United States is looked upon by the people of the far east as a Christian country, and whatever is gone here that seems to them unfair. Iministration expenses must come done here that seems to them unfair one Peter's Pence and from gifts of its faithful not in Italy, but in all its will react upon Christian interests there, not in Japan alone but in China and all of Asia. The American Bible Society Finds Influx of Foreigners a Great Problem.

New York, May 5 .- American Bible society agencies of the southwest and Pacific coast made loud home mission pleas on account of the vast inlines of foreigners. Many races are represented in Texas. Louisiana, Oklahoma, California, Oregon and Washington, and vastly more peoples of races now represented will come. Through their missionary societies, churches are doing much, but Bible society agents tell of heavy burdens falling on them. Has 24 Workers on Const.

The American Bibls society employs, in its Pacific coast agency, 24 workers, chiefly colporters who last year visited 28,825 families. Only 2569 were found with Bibles. The Bibles supplied numbering 78,975, were in 57 different languages and dislects. Koreans and Filipinos have reached the coast in considerable numbers, there being at least 1800 of the latter. Presbyterian and Methodist church, South, are caring for them, but need the help of the Bible society. There is little prefudice against reading the Bible.
